SSIS Integration Toolkit for
Magento

KingswaySoft
www.kingswaysoft.com

SSIS Integration Toolkit for Magento is a cost-effective, easy-to-use and high-performance data integration solution for Magento, utilizing Microsoft SQL Server Integration Services (SSIS) as the ETL platform and data load engine.

Data Integration Made Easy

SSIS Integration Toolkit is designed with the goal in mind that it helps maximize your development productivity by providing you a streamlined development experience. The tool handles all the intricate details involved in working with the Magento data model and business logics, so that you do not have to, therefore you can spend more time on your data rather than on the tool.

Key Features

- Complimented by SSIS capabilities, we offer the most feature-rich data integration solution for Magento, which enables data integration between Magento and virtually any other database or application systems.
- Support for reading/writing data to/from the Magento server.
- Refresh Component button to retrieve latest metadata from the Magento server.
- Starting with the Free Developer License for any interactive use, we offer the most flexible licensing model.
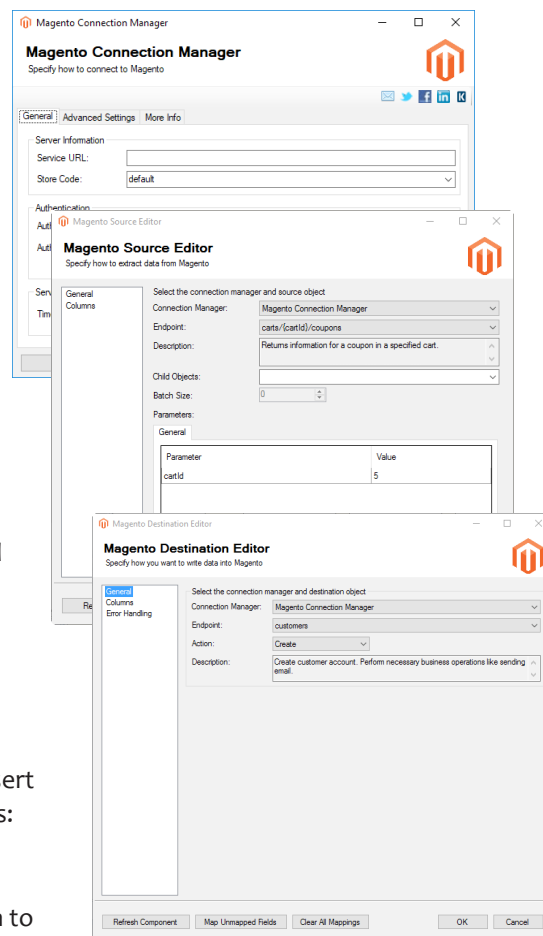

Main Components

Magento Connection Manager

- Connects to Magento via the REST API.
- Supports Administrator and Customer user types by generating corresponding Admin or Customer tokens.
- Option to work around intermittent errors by making retry service call.

Magento Source Component

- Facilitates reading data from Magento.
- Batch Size lets you specify how many records to retrieve per service call from Magento.
- Full support to read from Magento Child Objects and attributes.
- Support for Object source Search Parameters for easy advanced filtering options.

Magento Destination Component

- Support to create, update, delete or upsert data to Magento through 3 write actions: Post, Put and Delete write actions.
- Special column filtering features.
- 3 Error Handling Mechanism with option to enable the additional configurable column, MagentoRecordID

Benefits

- One single solution that works for Magento
- The toolkit helps you manage all the intricate details involved in working with Magento data model and business logics
- Easy learning curve, consistent application interface, familiar development experience within SQL Server Business Intelligence development environment (Visual Studio)
- Free developer license is available for any interactive use without any limitations
