

SSIS INTEGRATION TOOLKIT FOR DIRECTORY SERVICES

Use SSIS Integration Toolkit for Directory Services to manage your LDAP Users and Groups. The toolkit is a cost-effective, easy-to-use and high-performance data integration solution utilizing Microsoft SQL Server Integration Services (SSIS) capabilities.

DATA INTEGRATION MADE EASY

Let the toolkit simplify your data integration development work for Microsoft Active Directory. By utilizing Microsoft SQL Server Integration Services (SSIS) as your data integration platform, you can take advantage of the flexibility and power of the SSIS ETL engine. Use the toolkit to synchronize user account information with virtually any external data source that SSIS can read/write to.

KEY FEATURES

- Easily manage massive number of Users.
- Maintain User's Group memberships effortlessly.
- Read various Directory attributes from Users and Groups.
- Disable or enable massive number of User accounts instantly.
- Sophisticated custom field support for reading/writing to Active Directory.
- Advanced field filtering capabilities in the source and destination components.

MAIN COMPONENTS

ACTIVE DIRECTORY CONNECTION MANAGER

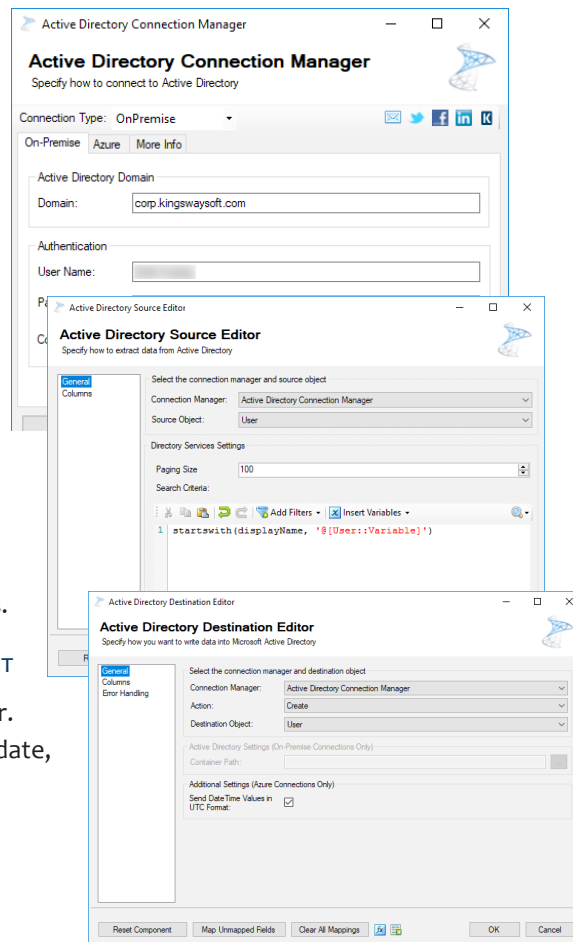

- Used to establish a connection to Microsoft Active Directory or Microsoft Azure Active Directory.
- Context Bindings option to specify special options in AD Setup.

ACTIVE DIRECTORY SOURCE COMPONENT

- Facilitates reading data from AD server.
- Supports using Search Criteria to filter data using LDAP filtering format.
- Capability to specify container path to narrow your search scope.
- Support for reading from custom fields.

ACTIVE DIRECTORY DESTINATION COMPONENT

- Facilitates writing data to the AD server.
- Support for 5 action types – create, update, upsert, delete, and move.
- Support for custom fields.
- Support for massive data manipulation to User, Group and GroupMembership objects.
- 3 Error-Handling Mechanisms.

BENEFITS

- The toolkit helps you manage all the intricate details involved in working with Microsoft Active Directory data.
- Easy learning curving, consistent application interface, familiar development experience within SQL Server Business Intelligence development environment (Visual Studio).
- A codeless data integration approach.
- Free developer license is available for any interactive use without any limitations.

SYSTEM REQUIREMENTS

- Microsoft Active Directory
 - Microsoft Active Directory (On-Premise)
 - Microsoft Azure Active Directory
- SQL Server Integration Services
 - Azure SQL
 - Microsoft SQL Server 2019
 - Microsoft SQL Server 2017
 - Microsoft SQL Server 2016
 - Microsoft SQL Server 2014
 - Microsoft SQL Server 2012
 - Microsoft SQL Server 2008 R2
 - Microsoft SQL Server 2008

ABOUT KINGSWAYSOFT

KingswaySoft is a leading provider of data integration solutions for enterprise software. Organizations from more than 90 countries rely on our solutions to drive their business data efficiency.

Our primary mission is to help our customers to be successful in their business by providing them with quality software products and innovative integration solutions at a competitive price.
