SSIS Integration Toolkit for
Microsoft Dynamics GP

SSIS Integration Toolkit for Microsoft Dynamics GP is a cost-effective, easy-to-use and high-performance data integration solution for Microsoft Dynamics GP, utilizing Microsoft SQL Server Integration Services (SSIS) as the ETL platform and data load engine.

Data Integration Made Easy

SSIS Integration Toolkit is designed with the goal in mind that it helps maximize your development productivity by providing you a streamlined development experience. The tool handles all the intricate details involved in working with the Microsoft Dynamics GP data model and business logics, so that you do not have to, therefore you can spend more time on your data rather than on the tool.

Key Features

- Visual drag-n-drop ETL development experience.
- Complimented by SSIS capabilities, we offer the most feature-rich data integration solution for Microsoft Dynamics GP, which enables data integration between Microsoft Dynamics GP and virtually any other database or application systems.
- Support for reading/writing data to/from Dynamics GP server.
- Refresh Component button to retrieve the latest metadata defined in the GP Stored Procedure XML Schema File.
- Starting with the Free Developer License for any interactive use, we offer the most flexible licensing model.

Main Components

GP Connection Manager

- Establishes connection to your Microsoft Dynamics GP database catalogs.
- Test Connection button to verify success to the GP server.
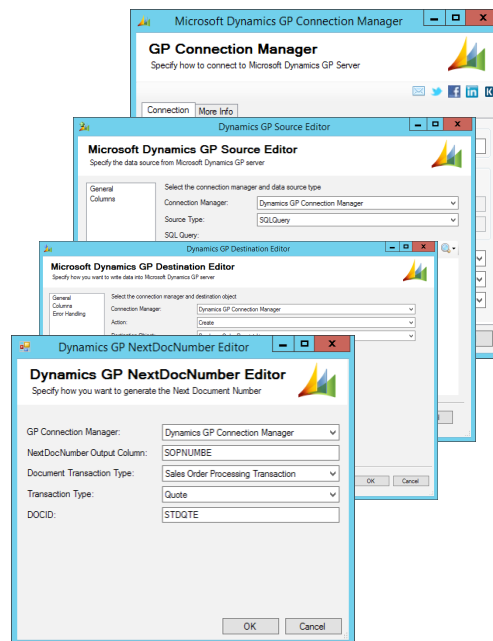

GP Source Component

- Facilitates reading data from GP database
- Ability to specify and minimize desired fields to read from.
- Support for custom queries.

GP Destination Component

- Facilitates writing data to Microsoft Dynamics GP server through the following actions:
  - Create
  - Update
  - Delete
  - Void
- Support to indicate whether GP field is required as an input for particular Action chosen.
- 3 Error Handling Mechanism.
- Advanced filtering capabilities for GP field mappings.

GP Next Document Number Generator Component

- Used to help you generate the next sequential ID number for given records that do not have automatic ID number generation.

Benefits

- One single solution that works for all major Dynamics GP versions.
- The toolkit helps you manage all the intricate details involved in working with Microsoft Dynamics GP data model and business logics
- Easy learning curving, consistent application interface, familiar development experience within SQL Server Business Intelligence development environment (Visual Studio)
- Free developer license is available for any interactive use without any limitations

System Requirements

- Microsoft Dynamics GP
  - Microsoft Dynamics GP 2018
  - Microsoft Dynamics GP 2016
  - Microsoft Dynamics GP 2015
  - Microsoft Dynamics GP 2013
  - Microsoft Dynamics GP 2010
  - Microsoft Dynamics GP 10.0
- SQL Server Integration Services
  - Azure SQL
  - Microsoft SQL Server 2019
  - Microsoft SQL Server 2017
  - Microsoft SQL Server 2016
  - Microsoft SQL Server 2014
  - Microsoft SQL Server 2012
  - Microsoft SQL Server 2008 R2
  - Microsoft SQL Server 2008

About KingswaySoft

KingswaySoft is a leading provider of data integration solutions for Microsoft Dynamics software. Organizations from more than 90 countries rely on our solutions to drive their business data efficiency.

Our primary mission is to help our customers to be successful in their business by providing them with quality software products and innovative integration solutions at a competitive price.
